JOURNEY TO VITALIS

Our journey to Vitalis began on Sunday, October 29, 2023.

We took our first train to Bratislava, and then we got on the train to Dresden.

At 5 p.m. We took our last train from Dresden to Leipzig.

We arrived in Vitalis in the evening around 6:30 p.m.

Introduction in VITALIS

On our first day, we had a tour of a campus.

We got acquainted with the rules we had to follow and where we could find information for the following days.

Later in the afternoon, we met with our mentors, and they explained to us what we would be doing for the next two weeks.

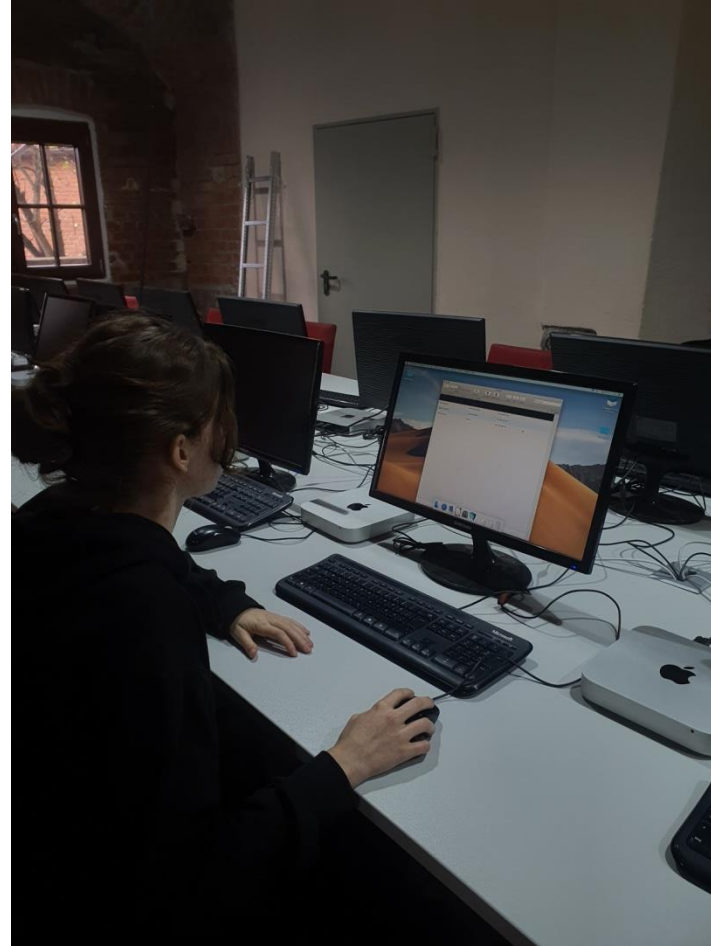

EUROPEAN
PROJECTS
VITALIS

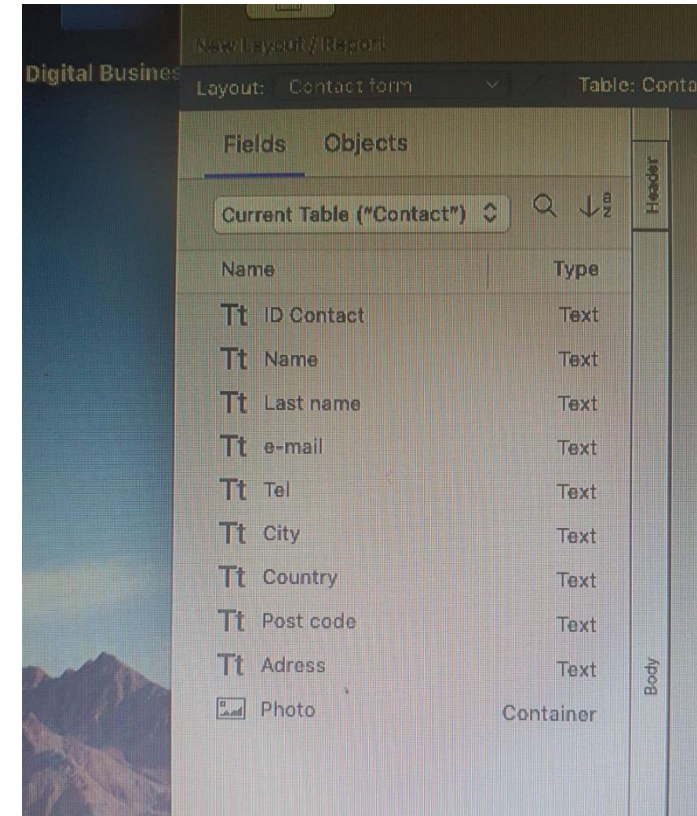

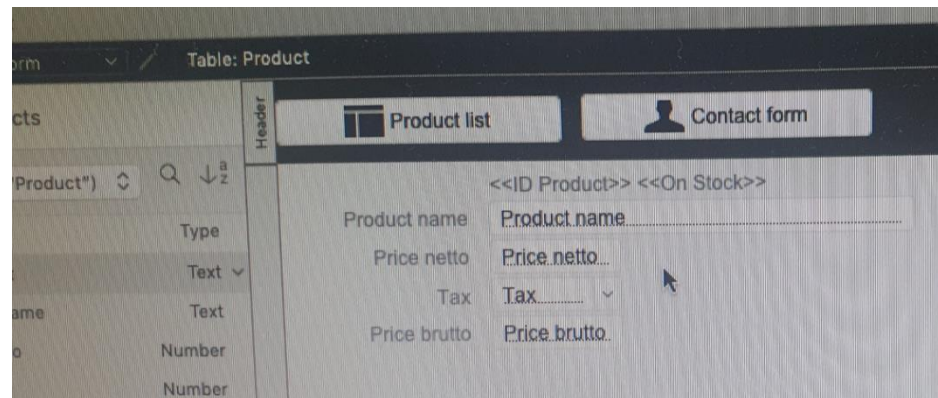

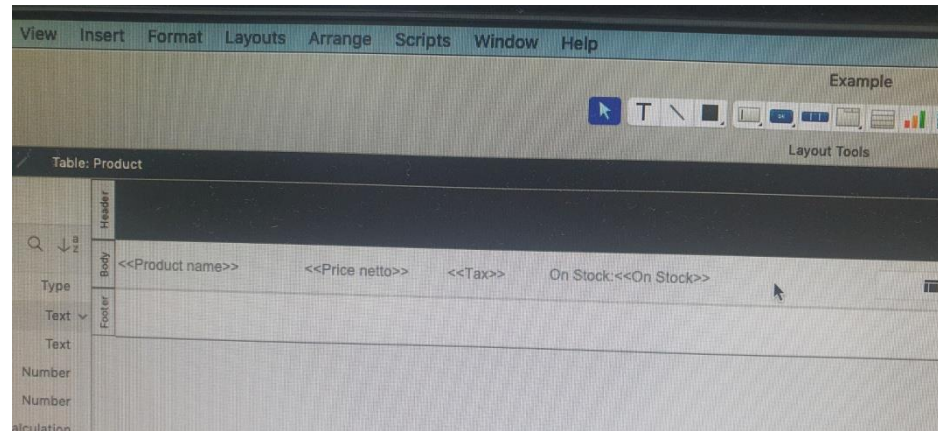

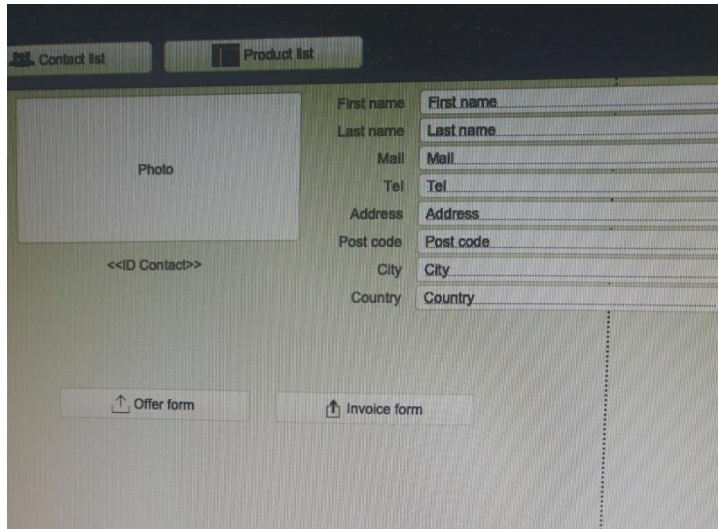

First week in workshop - Digital business internship

We started to learn how to use software named LibreOffice, Filimaker, and Gimp, and then we started to make our own databases for the fictional company.

After that we made a financial plan, budgets, costs, balance sheet, company structure, and digital documents like offers, invoices, and orders.

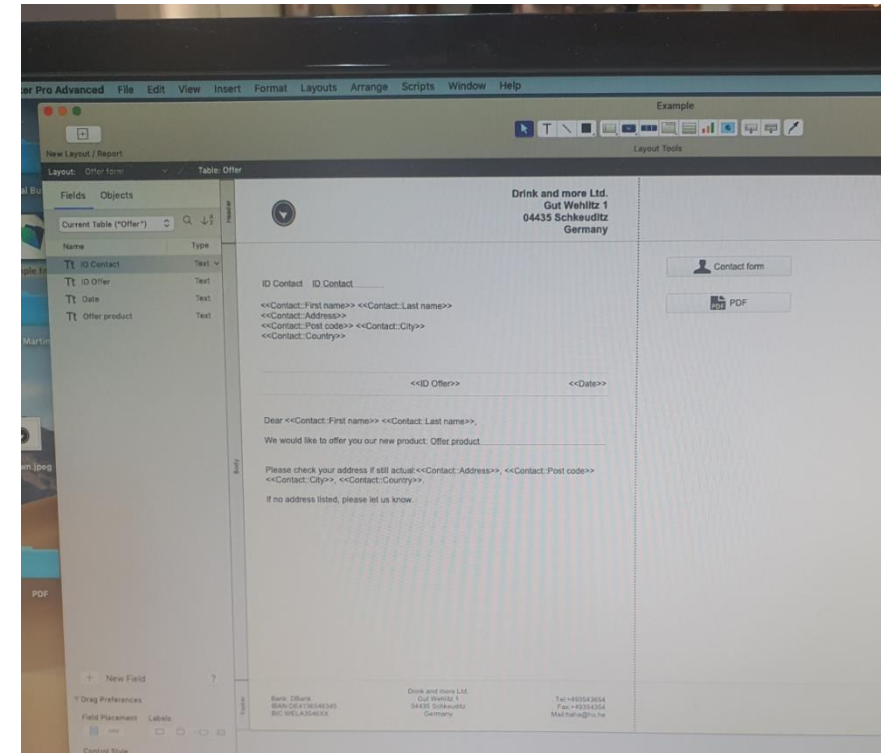

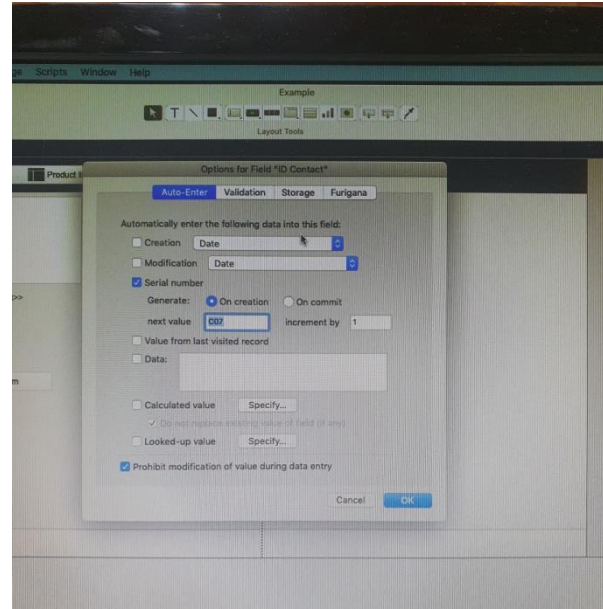

We started with making contact list, contact form and product list and product form.

Then we made a table offer and invoice.

With fields: ID contact, ID offer, date, offer product,

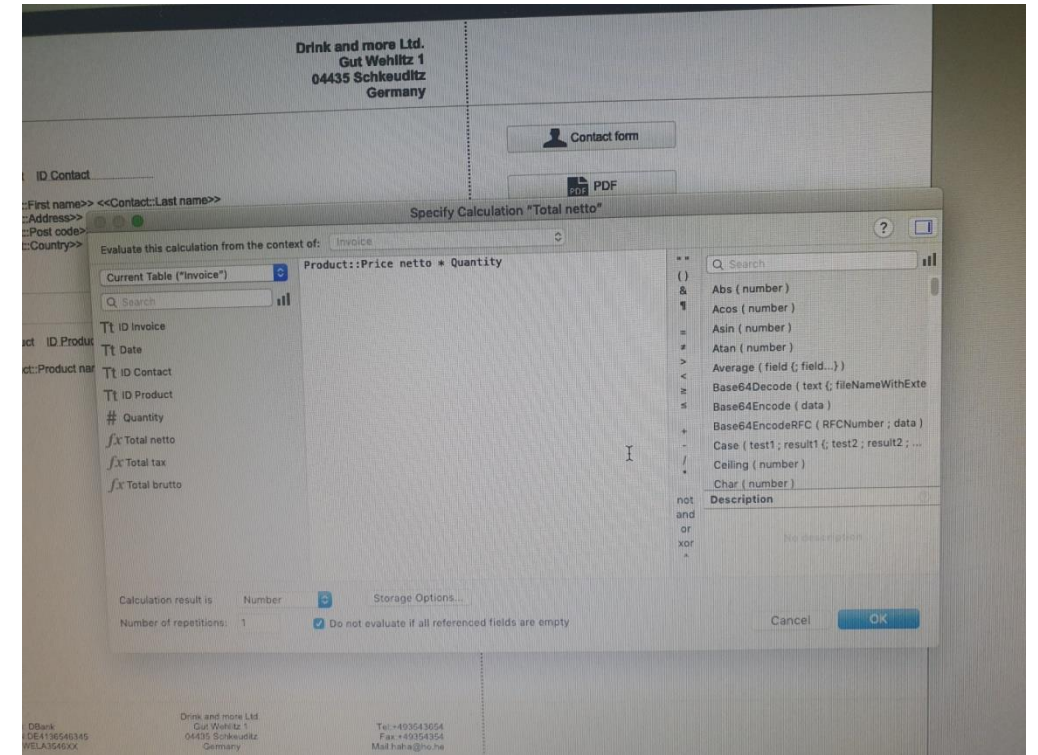

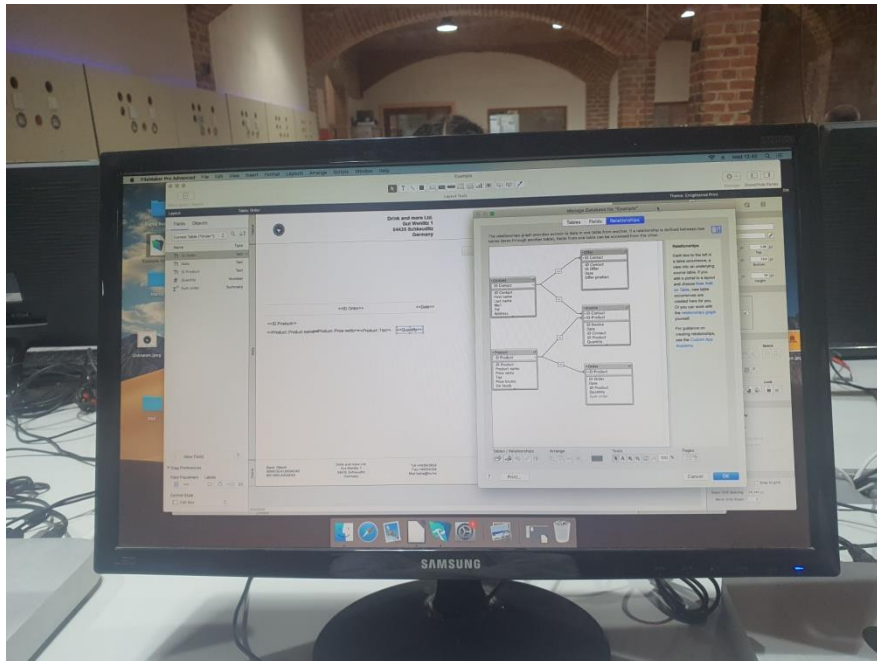

This was the form that our buyer would receive from us.

Then we made a table order.

With fields: ID Order, ID Product, Quantity, Date, Sum order

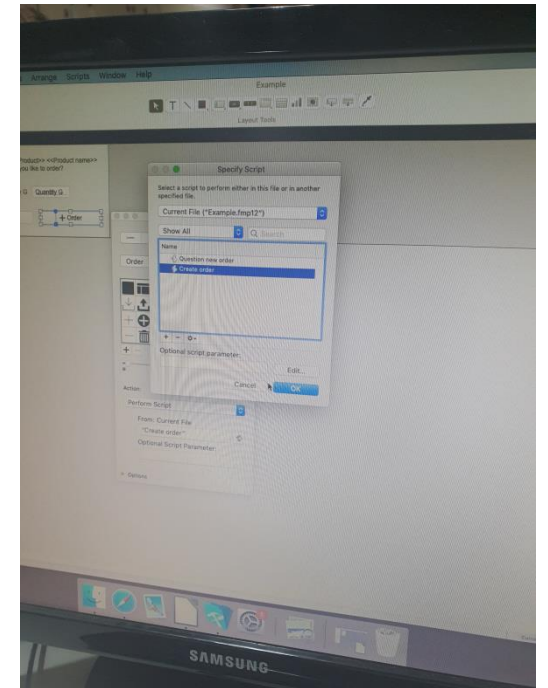

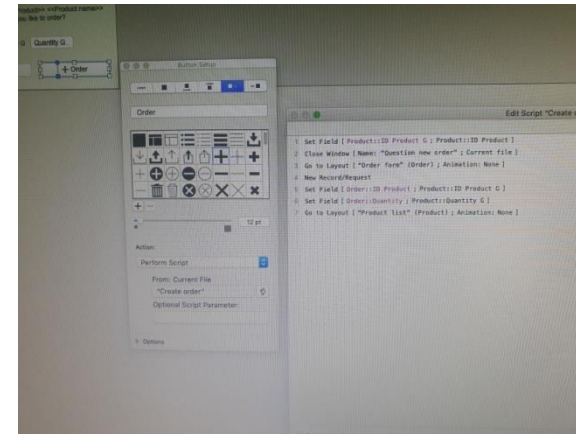

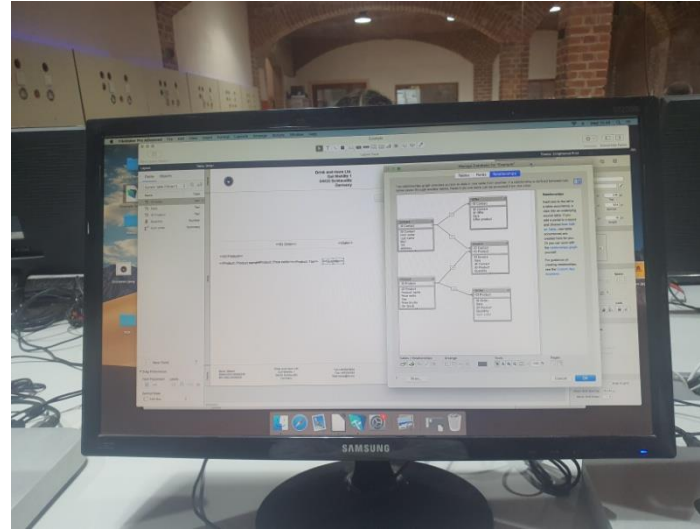

This was the form that would be used if we wanted to order something.

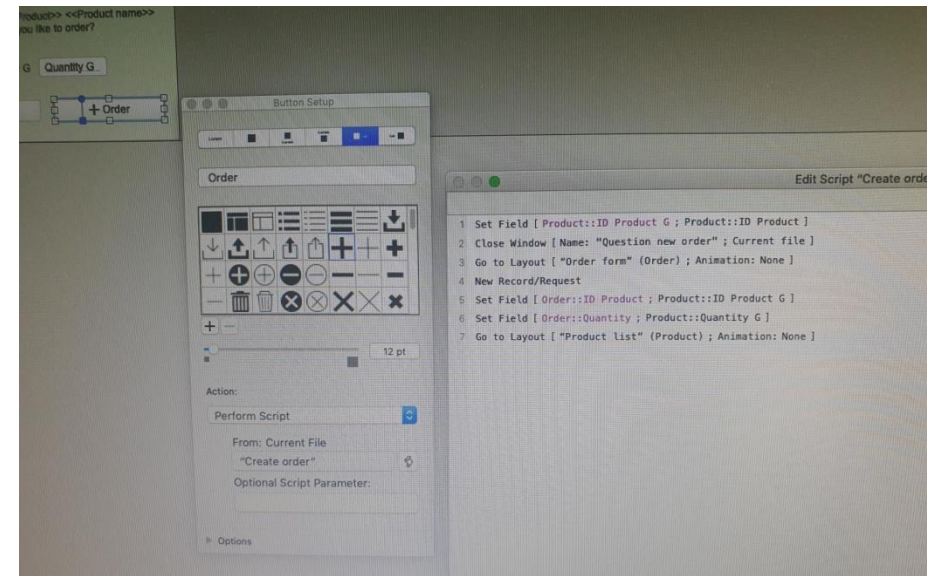

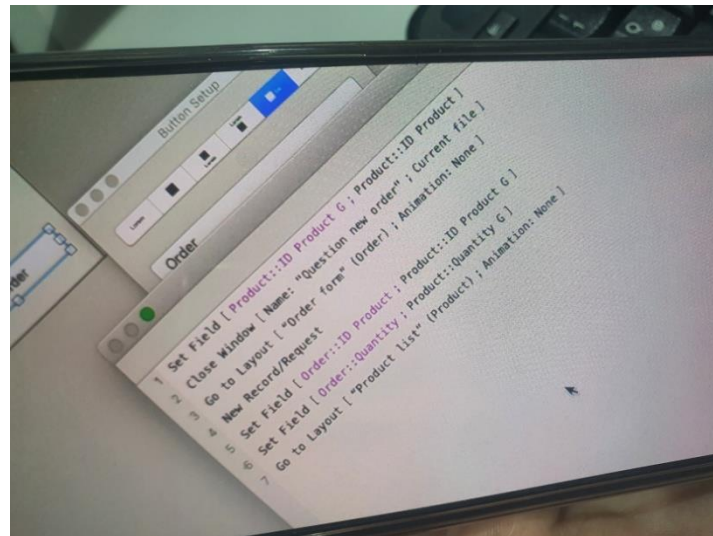

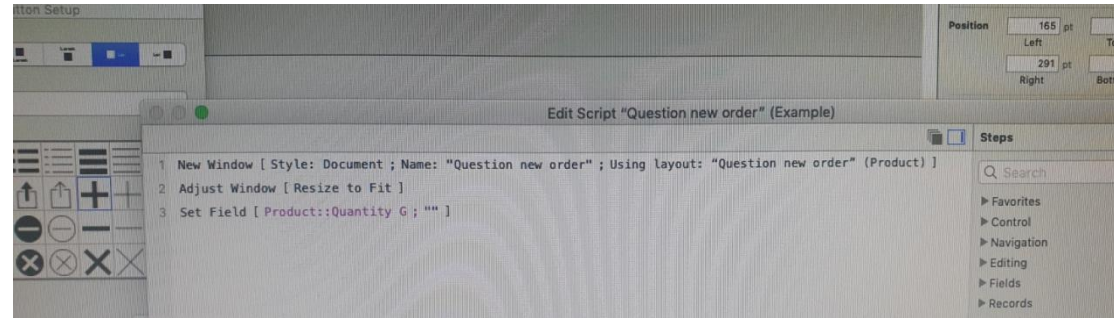

Second week in workshop - Digital business internship

On the second week, we were working with the tables we created (order, invoice, offer).

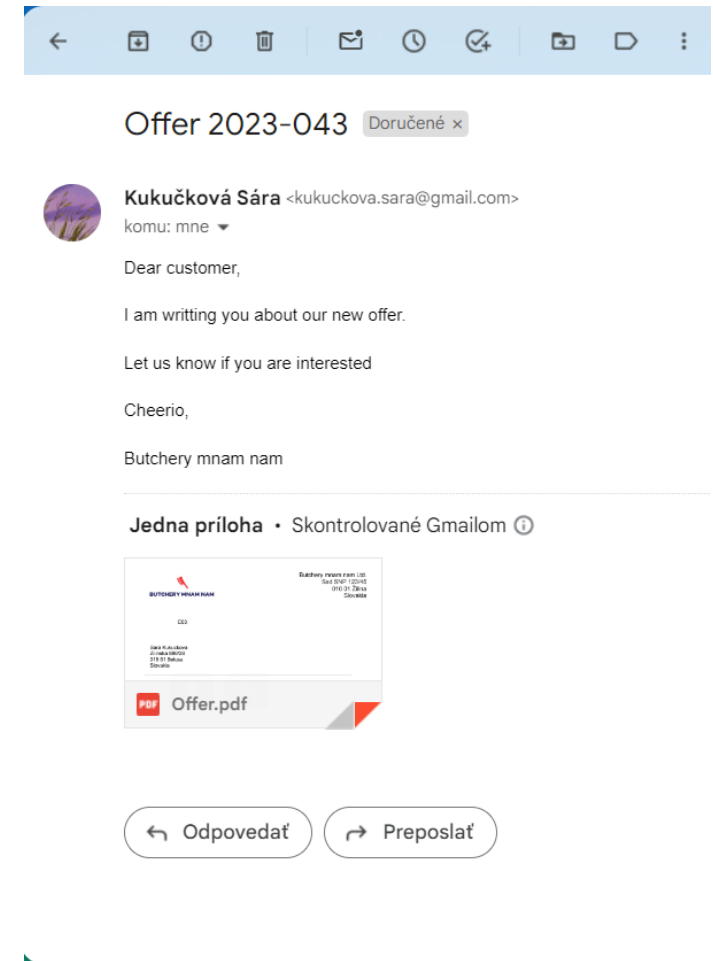

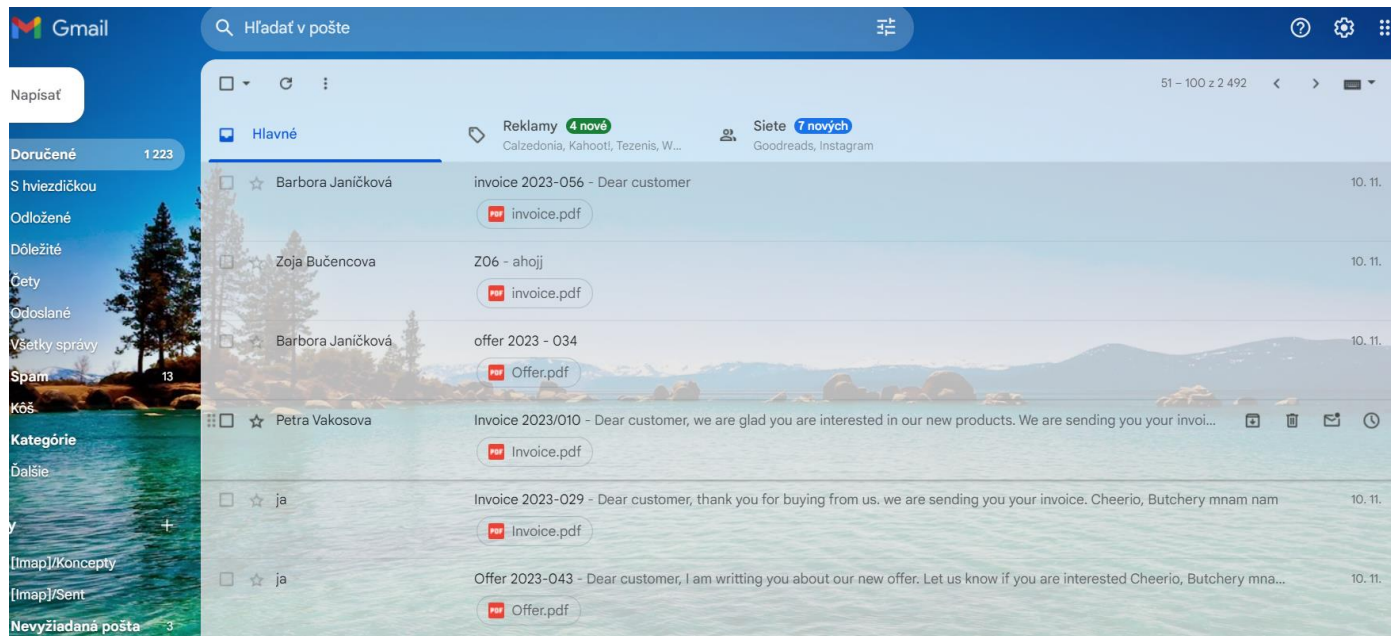

We started to make relationships between them so everything would be automatic.

We created our own buttons so they would perform different steps with the scripts we wrote.

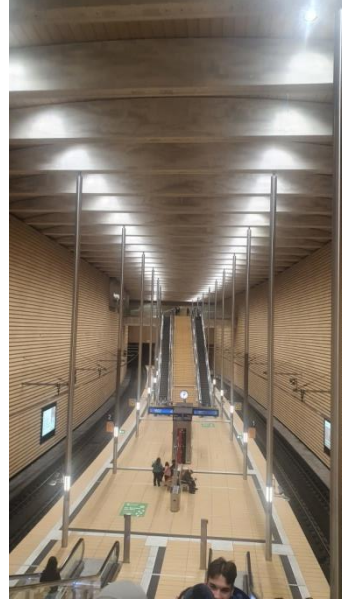

The last thing we did was send an automatic form via email. That is, when it created an automatic form for us, it was sent by itself using a script to the required person for whom the form was issued.

LEIPZIG

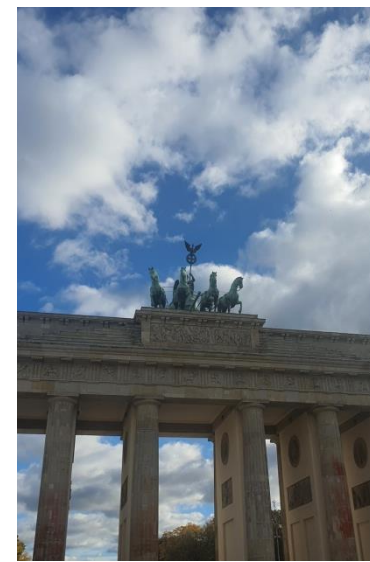

OUR TRIPS

DRESDEN

In Germany, we visited many beautiful cities where we had a tour with a tour guide.

BERLIN

JOURNEY BACK HOME

Our journey back began on Saturday, November 11, 2023.

We took our first train to Leipzig, and then we got on the train to Dresden.

From Dresden, we went by train to Bratislava and then by train to Púchov.

THANK YOU FOR EVERYTHING
